Partner resources on climate change and sustainability

We're delighted to be working with a range of excellent partners from across local government, business, academia, civil society, public sector organisations and many others. We encourage those participating in **London Climate Action Week** and the **Schools Climate Summit** to avail of the following free partner resources.

This listing is updated regularly, so please do check for new additions.

If you would like to suggest additional resources, please contact us at: secretariat@globelegislators.org or via twitter [@climate_london](https://twitter.com/climate_london)

Greater London Authority

<https://www.london.gov.uk/>

The Mayor of London, Sadiq Khan, has declared a climate emergency. As part of London's response to this, the Mayor supported the first ever **London Climate Action Week** (LCAW) from 1-8 July 2019. The week brought together London's climate expertise and talent from across diverse sectors and is now the largest event of its type in Europe. Please read more on this here.

<https://www.london.gov.uk/what-we-do/environment/climate-change/london-climate-action-week>

In the education and youth section of the GLA website, you can find out information on what the Mayor is doing to help London's children and young people make the most of our city; support for families and early years, discover and learn from London schools who have done exceptionally well raising student achievements; about teaching programmes and careers etc.

<https://www.london.gov.uk/what-we-do/education-and-youth>

In the Environment section of the GLA website, you can find information and resources on the following areas: Green spaces and COVID 19, Pollution and Air Quality, Waste and Recycling, Climate Change, Environment Strategy, Parks and Green Spaces and Energy as well as the Environment Newsletter.

<https://www.london.gov.uk/what-we-do/environment>

GLA's Report on How Schools and Early Years Settings Can Adapt to Climate Change is available as a valuable reference material for schools here

<https://www.london.gov.uk/WHAT-WE-DO/environment/environment-publications/how-schools-and-early-years-settings-can-adapt-climate-change>

You can find the list of all GLA's environment publications here:

<https://www.london.gov.uk/WHAT-WE-DO/environment/environment-publications?order=DESC&page=4>

The Mayor's Air Quality Fund is a £22 million fund for over 10 years which aims to support projects by London boroughs to improve air quality.

Global Action

The link is to free school resources including downloadable Social Media resources, Social Media Graphics, KS1 Graphics for Clean Air Day.

<https://www.cleanairday.org.uk/free-resources/schools>

Clean Air Sooner

Through the "Clean Air in the Making" campaign, six free-of-charge cleaner air programmes have been designed to quickly improve the air quality in and around schools and help pupils breathe cleaner air now. These projects involve pupils, teachers and parents delivering pupil-led projects and adopting small changes that will make a big difference and help them to breathe 'Cleaner Air Sooner'.

The **TOOLKIT** section covers the following topics – Awareness, Active travel, Anti-idling, Re-imagining streets, Mapping and Green Infrastructure.

Transform Our World

A quality rated resource hub to help teachers bring environmental action into the classroom. It has a link to **top curriculum-linked resources** on themes including Sustainable Development Goals, Outdoor Learning, Local Community and STEM. It also has a link to **Showcased Programmes**, with Transform Our World's current showcased programmes, handpicked with the help of the teacher Design Committee.

www.transform-our-world.org

Youth Climate Summit section of the Transform Our World website offers over 160+ sessions for primary and secondary students.

www.transform-our-world.org/youth-climate-summit-2020

GAP Summit 2021

GapSummit is an annual student-run, world-class biotechnology leadership summit with the core objectives of substantively discussing pressing challenges facing the bio-economy and catalyzing innovation to solve these challenges. As the only intergenerational conference of its kind, GapSummit competitively selects 100 Leaders of Tomorrow from around the world to attend, and recruits current leaders across the global biotech community to inspire the next generation. GapSummit is the flagship event of Global Biotech Revolution (GBR), a youth-led nonprofit which connects and develops future leaders to accelerate the growth and advancement of the global biotech.

Reboot the Future

Working with young people and leaders to build a compassionate and sustainable future. In their *How Will You Reboot the Future?* campaign they are calling on all educators of 14-18 year olds to ignite their students' sense of optimism, tap into their imagination and creativity, and inspire them with positive and personal ways of engaging in climate action.

www.globaldimension.org.uk/rebootthefuture

How Will You Reboot the Future campaign features a series of short films - following the lives of five young people who, over the next five years, each play a role in rebooting the future. These films were inspired by e-book *Rise Up to Reboot the Future*, written by environmental activist Jonathon Porritt, which is included as a resource, alongside a set of teaching guides to help you to support discussion in your classrooms.
